## COLD BATH BREWING CO

One of Yorkshire's youngest breweries situated in the heart of Harrogate. It has been set up by Mick Wren, a former London cabbie who moved to Harrogate, and two friends: Jim Mossman and Roger Moxham, who was previously with a national pub company.

Using pale malts and continental yeast strains to create a clean, crisp base. Traditional European hops add complexity and subtle flavours. Gentle carbonation allows the slight bitterness and delicate spice notes to shine through.

	PINT	HALF
COLD BATH BREWING CO LAGER (ABV 4.2%)	£5.30	£2.65

Perfectly balanced with medium bitterness, fruity aromas and a delicate hint of sweetness from the malts and wheat. Citrus and gooseberry notes from the hops make this a light, refreshing ale ideal for drinking with food.

Later, distillation of these alcoholic byproducts concentrated the alcohol and removed impurities, producing modern rums.

## VODKA

For many centuries, beverages differed significantly compared to the vodka of today, as the spirit at that time had a different flavour, colour and smell, and was originally used as medicine. It contained little alcohol, an estimated maximum of about 14%. The still, allowing for distillation increased purity, and increased alcohol content, was invented in the 8th century.

## WHISKY | WHISKEY

The art of distillation spread to Ireland and Scotland no later than the 15th century. The distillation process was still in its infancy; whisky itself was not allowed to age, and as a result tasted very raw and brutal compared to today's versions. Renaissance-era whisky was also very potent and not diluted.

Over time whisky evolved into a much smoother drink.

## BRANDY

The origins of brandy are tied to the development of distillation. Initially wine was distilled as a preservation method and as a way to make it easier for merchants to transport. The intent was to add the water removed by distillation back to the brandy shortly before consumption. It was discovered that after having been stored in wooden casks, the resulting product had improved over the original distilled spirit.
